THE PROBLEM

Real estate teams in the **UK, US, and Dubai** are generating more leads than ever — and converting fewer of them. Not because the product is wrong. Not because the price is off. Because **nobody responds fast enough**. A prospect enquires about a £2M listing at 8pm. Your team sees it at 9am. By then, they've already toured with a competitor.

HOW AIXBPO WORKS

Every lead. Responded to. Automatically.

- 1 Instant Response — 0 to 60 seconds**
Enquiry lands from any source — Facebook ad, Rightmove, Zillow, website form, missed call. AIxBPO responds immediately via WhatsApp or voice.
- 2 AI Qualification**
Budget, timeline, preferred property type — captured conversationally. Feels like a knowledgeable agent, not a bot.
- 3 Brochure & Details Delivered**
Relevant brochure, floor plans, and pricing sent instantly on WhatsApp — matched to their stated preference.
- 4 Viewing Booked Automatically**
AI offers available slots and books the appointment directly — confirmed via WhatsApp, CRM updated, agent notified.
- 5 30-Day Follow-Up Sequence**
Leads who don't book immediately receive automated follow-ups — price alerts, new inventory, market updates — until they're ready.
